To Whom It May Concern:

If you are looking for a daycare with heart, passion and education, then you have found the right place. Love & Lollipops was a great place for my children. My oldest daughter was in the care of Love & Lollipops for 4 ½ years. She learned her numbers, alphabet, and basic spelling and math. In addition she learned about sharing with others and built lasting relationships with the fellow kids and with Mrs. Linda. My 20 month has also gone to Love & Lollipops since she was about 6 weeks old. I know that both of my girls are in the best of hands when I drop them off. Special love and attention is giving to all children who are in the care of Love & Lollipops. I have appreciated all the love and support that have been given to my children, and I would highly recommend Love & Lollipops for anyone who is looking for a loving and supportive environment in which their child can learn and grow.

Thank you,
Erin
